

2024 SUPER BOWL PROSPECTS ANALYSIS

June, 2024: A look at the one to three year window Super Bowl prospects of each team.

SUPERBOWL CONTENDER: TEAM OF THE CROP

Baltimore	Top 3 coach Harbaugh faces more roster turnover; WR's improved; dangerous if QB Jackson healthy.
Buffalo	Well coached, top QB & improving pass rush; lacks weapons but QB Allen makes them dangerous.
Cincinnati	Weak o-line improving for top QB on dynamic offense; decent D and Higgins now signed.
Detroit	Ascending offense; added pieces to a weak secondary; need Campbell to make practical game calls.
Kansas City	Top quality coach & QB; needs better WR & o-line performance; 6 straight semi-final games.
Miami	Guru coach has offense humming; top 5 talent; o-line must hold up & D must elevate; dangerous.
Philadelphia	Quality roster took losses; good asst. coach hires; championship pedigree; must overcome Sirianni.
San Francisco	Like Miami, among talent elite; well coached team with grit; must overcome playoff snakebite.

SUPERBOWL CONTENDER: COULD SURPRISE in 2024

Atlanta	Top-end o-line & weapons adds QB Cousins; young ascending team with good prospects.
Cleveland	Talented team with DC Schwartz addition; QB Watson/injured Chubb must rebound to get over the top.
Dallas	Top tier offense in the NFL, but losing o-line/RB talent; coach McCarthy still a concern.
Green Bay	QB Love explodes in 2nd half of '23; quality, young roster with o-line questions.
Houston	Top shelf drafts including franchise QB Stroud boost short/long term prospects for coach Ryan.
LA Rams	Well coached team very good when aging Stafford healthy; DT Donald a big loss; drafts on D a positive.
NY Jets	Excellent D carried them in '23; QB Rodgers/improved o-line fixes missing pieces; Super Bowl quality.

HAS SOME PIECES/COULD RISE: 1-YEAR AWAY

Chicago	Stacked 'D' came on late in '23; rookie QB Williams & added weapons offer much optimism for a change.
Indianapolis	QB Richardson return is a positive; won 8 games without him & injured RB Taylor. Some promise here.
Jacksonville	Coach Pederson needs to elevate QB Lawrence; not enough good pieces to contend yet.
LA Chargers	Harbaugh is what the Dr. ordered; must fix run D, o-line & WR room; Herbert is underrated.
New Orleans	Top 10 'D' of late; Carr must improve; good WR's; cap hits are hurting them.
Pittsburgh	QB change a plus, but not Super Bowl level; much improved o-line; need a #2 WR; good pressure 'D'.

RETOOLING: 2 YEARS AWAY

Arizona	QB Murray plays big but not a leader on this team that is shedding veterans across the board.
Carolina	Off a 2-15 season; rookie QB struggled; stud LB Burns departed, limited roster for new coach Canales.
Denver	Payton stuck with cap hit losses & a flyer on Bo Nix; defense has some really good pieces to build on.
Las Vegas	Coach Pierce early returns positive; no QB to speak of; weak roster overall past WR/pass rush rooms.
Minnesota	Great receivers here need a QB around decent o-line; top defensive coach needs to rebuild unit.
New England	Top defense annually to usher in Coach Mayo who has major offense issues- welcome in rookie QB May.
NY Giants	Burns, Lawrence, Thibodeaux pass rush & improved WR room give hope; weak roster though.
Seattle	QB Smith unlikely Super Bowl caliber; Carroll era ends; some decent pieces here to build on.
Tampa Bay	QB Mayfield loses coach Canales in blow; team is mediocre and is Mayfield the answer?
Tennessee	Roster getting worse led by weak o-line, free agent losses, Coach Vrabel departure; give it time.
Washington	Dan Quinn overhaul begins, plucking ex-Cowboys; great draft in '24; QB Daniels worth some excitement.

TOTAL REBUILD: 3 YEARS AWAY

None	After three - 3 to 4 win seasons the Texans won 10 in 2023 and are 16-1 to win the Super bowl in 2024 which illustrates no team is more that 2 years away anymore as your prospects are as good as your starting quarterback.
